## Writing

I'd like to comment on the quotation by Charles Dickens that says that when we doubt we just waste our time. I can suggest that the author wanted us to realize how little time we have. We should appreciate it and focus on crucial things. 45

I'm inclined to believe that delays are dangerous. While you're postponing the start of your dreams or hesitating in yourself, somebody else is realizing them. It's all about perseverance and determination.

In my personal experience I also was an idle person with a goal to become a dancer. But one day I have just grasped that the sky is the limit and my fears of judgement are only in my head. It was the best decision in my life. 77

Another instance is Rosa Parks. She actually changed lives of black people. But if she didn't refuse to give up her seat to a white man, we wouldn't have equal rights for everyone. 33

So the point I'm trying to make is that avoidance of actions leading to the goals is just time-wasting, a journey of "thousand miles begins with a single step". <sup>you</sup> haven't got enough time to be insecure, so <sup>you</sup> <sup>for your aim</sup> should do something without hesitations. 45 2004
