Writing

I like to play "Genshin Impact". It has a lot of characters, I mean, a lot of. For example, Venti, Amber, Raiden Ei, Nahida etc. It is a fantasy story about the world ruled by Gods (Anchons). ^{The} main character Aether or Lumina is seeking for his/her brother/sister, they both came to this world by unknown reason (for now). The Traveler (main character) having a long journey, he/she already visited six countries, that are based on the real ones, like Japan, Russia, China, Germany, India and... the one I don't remember. The world called Teyvat.

The game was made for money, of course, but that's not the only reason. There's much of musicians, artists working ^{and "Genshin Impact"} for this game. It is ~~definitely~~ the work of art for sure! I'd recommend "Genshin" for people, who like fight in games, solving puzzles, read much of dialogs, listening to good music, because it ^{has} a large open world with good-written characters, dangerous monsters, sometimes very difficult tasks.
